Description :

The Arabo-Islamists Bouteflika and Zerhouni against the Kabyle Democrats

On the margin of the 14th Conference of Western Mediterranean Interior Ministers, also known as (CIMO 5+5) which took place in Venis, Italy on the 24th and 25th of November 2009, the Algerian interior minister declared (in French) on the airwaves of the private Italian network Canale 2000, the following : « For certain countries on the other side of the Mediterranean sea, all they think about is islamic radicalism. But, that is not the problem, there is exists today, other radical ideologies, which are extremist, integrists, whose essence either Christianity or Judaism, that is those who hide behind cultural demands. Such as certain negative concepts formulated and expressed by other extremists under the cover of local cultural specificities add water to the grinder of what we call the ideological matrix of terrorism. So we(Algerian Government), we say that these concepts are inadmissible, because their origins are not only religious radicalism, but also political positions which invoke certain philosophies and concepts (&) Whose devastating effects which we must fight with all means, our European friends don't seem yet to measure. ».. ».

Would this open declaration of war against the MAK be a prelude to an upgrade to genocide in Kabylia ? Why at this precise moment ? History teaches us that all the genocides of populations without protection followed preparations and scenario building similar to this, in which declarations of this kind were but announcement of what to come.

The MAK is NOT INTIMIDATED, and candamns with vigor these comments and this gross daring to qualify freedom and democracy loving people, and peaceful political activists "terrorists", and blood-stained real terrosts, angels. The Algerian interior minister thus reveals its true face and nature, and that it has made its choice of side : That of terrorism.

The Movement for the Autonomy of Kabylia (MAK) warns against the anti-Kabyle racist temptations of the Algerian regime, and alerts the International Opinion about the dramatic damages which will eventually follow. (…)

Interior Minister ZERHOUNI's threats against MAK and Kabyles

On the margin of the 14th Conference of Western Mediterranean Interior Ministers, also known as (CIMO 5+5) which took place in Venice, Italy on the 24th and 25th of November 2009, the Algerian interior minister declared (in French) on the airwaves of the private Italian network Canale 2000, the following : « As far as Algeria is concerned, we consider that the war against terrorism, is not limited to security strategies only, but we think that it must include an efficient treatment of the ideological matrix of this phenomenon. »

Hearing such an expression, one would think he is referring to schools, mosques, the Islamist political apparatus, the ministry of religious affairs, etc. wrong ! For M. Zerhouni the ideological matrix of terrorism is far from all of that. What he means exactly by that is something else, as he himself explains : « I explain myself ! For certain countries on the other side of the Mediterranean sea, all they think about is Islamic radicalism. But, that is not the problem, there exists today, other radical ideologies, which are extremist, integrist, whose essence either Christianity or Judaism, that is those who hide behind cultural demands. Such as certain negative concepts formulated and expressed by other extremists under the cover of local cultural specificities add water to the grinder of what we call the ideological matrix of terrorism. So we (Algerian Government), we say that these concepts are inadmissible, because their origins are not only religious radicalism, but also political positions which invoke certain philosophies and concepts (&) Whose devastating effects which we must fight with all means, our European friends don't seem yet to measure. »

On Wednesday 11/25/2009, Algerian owned and operated TV Channels (Canal Algérie and A3), aired in Arabic those comments, which it translated as : « Al-Irhab tahta ghita a al hawiyia al mahalliya » meaning « Terrorism under cover of local identity. » - The Algerian Press simply censured the minister's explanation and the TV's equating of cultural demands which only the Kabyle People expresses to terrorism. It is probably, by fear and for knowing well Yazid Zerhouni for being a provocateur since he qualified of "gangster", the high schooler Guermah Massinissa, whose assassination by gendarmes (marshalls) in 2001, was the root cause of the « Kabyle Black Spring » and the death of 128 Kabyles during the subsequent demonstrations.

Interior Minister ZERHOUNI's threats against MAK and Kabyles

Would this open declaration of war against the MAK be a prelude to an upgrade to genocide in Kabylia ? Why at this precise moment ? History teaches us that all the genocides of populations without protection followed preparations and scenario building similar to this, in which declarations of this kind were but announcement of what to come. Over a 100,000 troops are already in place in Kabylia, under the cover of "The war against terrorism", against a handful of terrorists captured elsewhere and freed in Kabylia as "repents" under the same government actors' program of "national reconciliation", which grants self-confessed terrorists with blood on their hands, immunity and other "social welfare" for what the duo "Zerhouni-Bouteflika" call, "Social Re-Insertion Program."

Nontheles, the MAK is NOT INTIMIDATED, and condemns with vigor these comments and this gross daring to qualify freedom and democracy loving people, and peaceful political activists "terrorists", and blood-stained real terrorists, angels. The Algerian interior minister thus reveals its true face and nature, and that it has made its choice of side : That of terrorism.

The Movement for the Autonomy of Kabylia (MAK) warns against the anti-Kabyle racist temptations of the Algerian regime, and alerts the International Opinion about the dramatic damages which will eventually follow.
